

SpliceMaster®

CableWash™

Washing Solution

For Cable Exterior Cleansing

FEATURES

- MILD - No harsh solvents to swell or damage cable jackets.
- BIODEGRADABLE - Water-based cleaner is environmentally friendly.
- CONVENIENT - Eliminates need to source water, soap, or other cleaners.
- ECONOMICAL - A clean and proper splice is always the least expensive.
- SYSTEM APPROACH - Part of the [SpliceMaster™](#) Cable Cleaners system.

Cable Cleansing

Dirt, mud, and clay must be removed from the exterior jackets of direct-buried cables prior to splicing. Solvents are not appropriate for this use as they tend to swell and damage cable jacket materials.

CableWash™ is a mild, water-based cable washing solution for cleansing cable jackets prior to splicing. Its biodegradable formula contains no harsh solvents, and is compatible with jacket materials. It is non-freezing for cold weather application.

Catalog No.	Description	Units/CS	Image
