

Lint Free!

SpliceMaster®

Dry Towelettes

For Cable Cleaning

FEATURES

- NON-LINTING - Leaves no residue that could lead to tracking. Ideal for electrical cable splicing.
- VERSATILE - Use to apply bulk SpliceMaster® Cleaners, or wipe them dry.
- TWO SIZES - Choose 6"x9," or larger 12"x12" size for big jobs.
- DURABLE - Won't shred under heavy wiping load.
- CONVENIENT - Eliminates the need to search for rags.
- HANDY PACKAGING - Neatly folded and perforation-cut in easy-dispensing box.

SpliceMaster® Dry Towels are ideal for wiping excess solvent from electrical cables during splicing. This accelerates the evaporation rate of today's effective but slow-drying cleaners. Towelettes can also replace rags as a means of applying bulk solvent. Rags and other wipes are a poor choice for cable cleaning since they can deposit lint or other residues that can lead to tracking.
