

Type FO™

Anhydrous Alcohol Prep Wipe

Now Available in Bulk

- Fast Evaporating
- No Residue
- 99.8% Anhydrous Isopropanol
- Non-Abrasive
- Convenient Packages
- Excellent Solvency

Type FO™ is great for cleaning glass fiber or connector end faces for better light transmission performance. Type FO™ quickly removes dust, oils, and contaminants, while leaving no residue. The **anhydrous alcohol** in FO™ has essentially no water content. Avoiding water is important with optical fiber cleaning.

FO™ is available in a convenient pre-saturated towelette. The towels are durable and non-linting. Pre-saturated wipes are a convenient option for field use. The package limits vapor exposure and eliminates spill hazards.

We now have bulk packages available for those who prefer pints and quarts.

Catalog #	Description	Units per case
FO-1	5" x 8" Towelette (50/box)	8 boxes per case
FO-16	16 oz Bottle	12
FO-32	32 oz Bottle	12
