

# SAFETY DATA SHEET

## 1. Identification of the substance/mixture and of the company

### 1.1 Product identifier

**Product Name: QuickKleen™  
QC Fiber Cleaner**

**Product ID numbers:** QC-2LP  
QC-XXX (Where XXX is the package code)

### 1.2 Relevant identified uses of the mixture and uses advised against

**Identified uses:** Fiber and precision cleaning

**List of advices against:** Not applicable.

### 1.3 Details of the supplier of the safety data sheet

#### Supplier/Manufacturer:

**American Polywater Corporation**  
11222 - 60th Street North  
Stillwater, MN 55082 USA  
Tel: 1-651-430-2270  
Email: sds@polywater.com

**Powerhouse Electric Limited**  
289 Rosebank Road,  
Avondale, Auckland 1026, NZ  
09 373 4487  
Email: sds@polywater.com

### 1.4 Emergency telephone numbers

INFOTRAC: +1-352-323-3500 (INT'L)  
NPC (National Poison Centre) 0800 764 766 and 0800 Poison

## 2. Hazards Identification

### 2.1 Classification of the substance or mixture

Classification according to USA OSHA 29 CFR 1910.1200 (2012) and Canada HPR (SOR/2015-17; WHMIS 2015).

This product is not classified as hazardous according to GHS criteria.

### 2.2 Label elements

**Pictograms:** None required.

**Signal word:** None required.

**Hazard Statements:** None required.

**2.3 Other hazards:** No information available.

## 3. Composition/Information on Ingredients

<u>Component</u>	<u>CAS #</u>	<u>EC #</u>	<u>Wt. %</u>
Methyl nonafluorobutyl ether	163702-07-6	--	19 - 76
Methyl nonafluoroisobutyl ether	163702-08-7	--	19 - 76
Isopropanol	67-63-0	200-661-7	4 - 5

## 4. First Aid Measures

### 4.1 Description of first aid measures

**Eye Contact:** If eye irritation from exposure to vapors develops, move to fresh air. Flush eyes with clean water. If irritation persists, seek medical attention. For direct eye contact, flush with large quantity of water for 15 minutes. Seek medical attention.

**Skin Contact:** Remove contaminated clothing; flush skin thoroughly with water. If irritation occurs, seek medical attention.

**Inhalation (Breathing):** If irritation of nose or throat develops, move to fresh air. If irritation persists, seek medical attention. If breathing is difficult, provide oxygen. If not breathing, give artificial respiration. Seek immediate medical attention.

**Ingestion (Swallowing):** Do not induce vomiting or give anything by mouth unless directed to do so by medical personnel. Get medical attention if symptoms appear.

**4.2 Most important symptoms and effects, both acute and delayed**

Refer to Section 11 for more information.

**4.3 Indication of immediate medical attention and special treatment needed.**

No information available.

**5. Firefighting Measures**

**5.1 Extinguishing media:**

Material will not burn.

**5.2 Special hazards arising from the substance or mixture**

No unusual fire or explosion hazards are anticipated. No unusual effects are anticipated during fire extinguishing operations. Avoid breathing the products and substances that may result from the thermal decomposition of the product or the other substances in the fire zone.

**Hazardous decomposition and by-products:**

Burning generates carbon monoxide, carbon dioxide, toxic vapor, gas and particulate during combustion. Hydrogen fluoride and perfluoroisobutylene (PFIB) may be formed at elevated temperatures- extreme conditions of heat.

**5.3 Advice for firefighters**

Exposure to extreme heat can give rise to thermal decomposition. Keep containers cool with water spray when exposed to fire to avoid rupture. Wear appropriate, protective clothing, including self-contained, positive pressure or pressure-demand breathing apparatus.

**6. Accidental Release Measures**

**6.1 Personal precautions, protective equipment and emergency procedures:**

Ventilate area with fresh air.

**6.2 Environmental precautions:**

Avoid release to the environment. Dyke the spill to prevent entry into waterways, sewers, basements or confined areas.

**6.3 Methods materials for containment and cleaning up:**

Absorb spill with sand or absorbents. Collect as much of the spilled material as possible using non-sparking tools and transfer to a container. Seal the container. Remember, adding an absorbent material does not change the toxicity or flammability hazard.

**6.4 Reference to other sections:**

Refer to Sections 4, 5, 8, and 13 for more information.

**7. Handling and Storage**

**7.1 Precautions for safe handling**

For industrial or professional use only. Avoid breathing vapors or spray. Do not get in eyes, on skin, or on clothing. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. Contents may be under pressure, open carefully. Use ventilation to control airborne exposure below occupational exposure limits. If ventilation is not adequate, use respiratory protection equipment.

**7.2 Conditions for safe storage, including incompatibilities**

Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store away from strong bases and oxidizing agents.

**7.3 Specific end uses**

See technical data sheet on this product for further information.

**8. Exposure Controls / Personal Protection**

**8.1 Control parameters**

**Exposure limits and recommendations:**

Component Name	Limit	Standard	Source/Note
Methyl nonafluorobutyl ether	TWA 750 ppm	AIHA	USA
Methyl nonafluoroisobutyl ether	TWA 750 ppm	AIHA	USA
Isopropanol	TWA 400 ppm	OSHA, NIOSH	USA
	TWA 400 ppm	EH40/2005 WEL	UK

**8.2 Exposure controls**

**Respiratory protection:**

Normal ventilation is adequate. If exposure exceeds recommended limits, respirator protection is recommended. Use a respirator or gas mask with cartridges for organic vapors (NIOSH-approved) or use supplied air equipment.

**Protective gloves:**

For repeated or prolonged skin contact, the use of impermeable gloves (neoprene, nitrile rubber, polymer laminate) is recommended to prevent drying and possible irritation.

**Eye protection:**

Safety glasses recommended.

**Other protective equipment:**

It is suggested that a source of clean water be available in work area for flushing eyes and skin. Impervious clothing should be worn as needed.

**9. Physical and Chemical**

**9.1 Information of basic physical and chemical properties**

<b>Appearance:</b>	Clear, colorless liquid; slight alcohol odor.
<b>Odor threshold:</b>	Not available
<b>pH:</b>	Does not apply
<b>Freezing point:</b>	- 43°F / - 42°C
<b>Boiling point:</b>	129°F / 54°C
<b>Evaporation rate:</b>	58 (n-butyl acetate = 1)
<b>Flash point:</b>	No flashpoint
<b>Flammability (solid, gas):</b>	Not applicable to liquids
<b>Upper/lower flammability or explosive limits:</b>	<b>LEL:</b> 4.0% <b>UEL:</b> 16.7%
<b>Vapor pressure:</b>	207 mmHg @25°C
<b>Vapor density (Air = 1):</b>	7.1 (Air = 1)
<b>Specific gravity (H<sub>2</sub>O = 1):</b>	1.48
<b>Solubility in water:</b>	Slight (less than 10%)
<b>Coefficient of Water/Oil Distribution:</b>	Not available
<b>Auto-ignition temperature:</b>	443°C
<b>Decomposition temperature:</b>	Not available
<b>Viscosity:</b>	<= 10 centipoise @ 23°C

**9.2 Other Information**

<b>Volatiles (Weight %):</b>	100%
<b>VOC Content:</b>	67 g/l (calculated SCAQMD rule 443.1)

## 10. Stability and Reactivity

### 10.1 Reactivity:

See remaining headings in Section 10.

### 10.2 Chemical stability:

Stable

### 10.3 Possibility of hazardous reactions:

None known.

### 10.4 Conditions to avoid:

None known.

### 10.5 Incompatible materials :

Strong bases and strong oxidizing agents.

### 10.6 Hazardous decomposition products:

Carbon dioxide, carbon monoxide, toxic vapor, gas and particulate during combustion. Hydrogen fluoride, perfluoroisobutylene (PFIB) at elevated temperatures/extreme conditions of heat.

## 11. Toxicological Information

### 11.1 Information on toxicological effects:

#### Acute toxicity

##### Eye contact:

Direct eye contact may cause eye irritation. This irritation is minimal and expected to be transient.

##### Skin contact:

Prolonged or repeated skin exposure can remove oils, causing redness, drying and cracking. Persons with pre-existing skin disorders may be more susceptible to skin irritation from this material.

##### Irritation and Sensitization Potential:

Product may be irritating to skin and eyes. It is not a sensitizer.

##### Inhalation (Breathing):

May cause respiratory tract irritation. Signs/symptoms may include cough, sneezing, nasal discharge, headache, hoarseness, and nose and throat pain.

##### Ingestion:

Ingestion of large quantities may cause irritation of the digestive tract, nervous system depression (e.g., drowsiness, dizziness, loss of coordination, and fatigue).

##### Toxicity to Animals:

Isopropanol	LD <sub>50</sub> (oral rat) 5000 mg/kg
	LD <sub>50</sub> (dermal rabbit) 12800 mg/kg
	LC <sub>50</sub> (inhl rat) 12000, 8 hours

#### Chronic Exposure:

**Reproductive Toxicity:** Not classified as a reproductive system toxin.

**Mutagenicity:** Not classified as a mutagen.

**Teratogenicity:** Not classified as teratogenic or embryotoxic.

**Specific Target Organ Toxicity (STOT)** No end point data.

**Toxicologically Synergistic Products:** Not available.

**Carcinogenic Status:** This substance has not been identified as a carcinogen or probable carcinogen by NTP, IARC, or OSHA, nor have any of its components.

## 12. Ecological Information

### 12.1 Toxicity:

**Ecotoxicity:** No information available.

**Aquatic Toxicity:**

Testing results indicate that methyl nonafluoroisobutyl ether and methyl nonafluorobutyl ether have insignificant toxicity to aquatic organisms at their saturation point (Lowest LC<sub>50</sub>, EC<sub>50</sub>, or IC<sub>50</sub> > substance water solubility). These compounds are highly volatile and have high Henry's Law constants and are thus expected to move rapidly through vaporization from solution in an aquatic compartment or from a soil surface in a terrestrial compartment to the atmosphere.

**12.2 Persistence and degradability:** No information available

**12.3 Bioaccumulation potential:**

Methyl nonafluoroisobutyl ether and methyl nonafluorobutyl ether are highly insoluble and very volatile. Bioconcentration is therefore unlikely and not expected as they are not likely to enter aqueous waste streams from typical uses and disposal, or, in the case of a spill, remain in the aquatic or terrestrial compartments. The high potential for these components to move from aquatic or terrestrial environments to the atmosphere indicates bioconcentration is unlikely to occur as they are not expected to be bioavailable.

**12.4 Mobility in soil:** No information available

**12.5 Results of PBT and vPvB Assessment:** This product is not, nor does it contain a substance that is a PBT or vPvB.

**12.6 Other adverse effects:**

**Ozone Depletion Potential (ODP):** 0  
**Global Warming Potential (GWP):** 320

**13. Disposal Considerations**

Dispose of product in accordance with National and Local Regulations.

**14. Transport Information**

**US DOT Domestic Ground Transportation:** Not Regulated  
**UN Number:** Not Listed  
**UN Proper shipping name:** Not Applicable  
**Transport hazard class(es):** Not Applicable  
**Packing group:** Not Applicable  
**Environmental hazards:** Not Applicable  
**Special precautions:** None Known  
**ICAO/IATA-DGR:** Not Regulated  
**IMDG:** Not Regulated

**15. Regulatory Information**

All chemical substances in this product are listed in the New Zealand Inventory of Chemicals (NZIoC) or are exempt

This product is not classified as hazardous according to the criteria of EPA NZ

**15.1.2. EU-regulations**

- Contains no REACH substances with Annex XVII restrictions
- Contains no substance on the REACH candidate list
- Contains no REACH Annex XIV substances
- Contains no substance subject to REGULATION (EU) No 649/2012 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 4 July 2012 concerning the export and import of hazardous chemicals.
- Contains no substance subject to Regulation (EU) No 2019/1021 of the European Parliament and of the Council of 20 June 2019 on persistent organic pollutants

### 15.1.3. Australian-regulations

All components are listed on the AICS.  
Product is not classified as hazardous according to criteria of NOHSC Australia.

### 15.1.4. International-regulations

All chemical substances in this product are listed as "Active" in the US EPA (Environmental Protection Agency) "TSCA Inventory Notification (Active-Inactive) Requirements Rule" ("the Final Rule"). as of Feb. 2019 or are otherwise exempt.

### 15.2 Chemical Safety Assessment

No chemical safety assessment has been carried out for the mixture by the supplier.

## 16. Other Information

### Abbreviations and acronyms:

OSHA = Occupational Safety and Health Administration  
CLP = Classification, Labeling and Packaging Regulation  
STOT = Specific Target Organ Toxicity  
LD<sub>50</sub> = Median Lethal Dose  
DNEL = Derived No Effect Level  
ACGIH = American Conference of Governmental Industrial Hygienists  
TSCA = Toxic Substances Control Act (USA)  
DSL = Domestic Substances List (Canada)  
AICS = Australian Inventory of Chemical Substances

**Revision Date:** March 14, 2022  
**Revision Number:** 7 NZ  
**Supersedes:** June 19, 2020  
**Other:** Updated Version with New Zealand (NZ) Information  
**Indication of Changes:** No changes.

Written in accordance with the provisions of OSHA 1910.1200 App D (2012) and Canada HPR (SOR/2015-17) (WHMIS 2015). (GHS format)
