

POLYWATER LUBRICANTS

Electrical Cable Manufacturers' Approvals

Several cable manufacturers evaluate and/or approve pulling compounds on compatibility with their cable jacket types. Some of these manufacturers maintain written lists of approved products in their applications literature, while others only provide information in response to inquiries.

The following manufacturers have approved our lubricants for use with their products.

Aetna Insulated Wire Co
Alcan Cable
American Insulated Wire
Brugg Cable
Conductores Monterrey (Viakon)
Condumex
Draka Cableteq USA-BIW Cables
Elsewedy Cables
Encore Wire
General Cable/BICC Utility Prod
KEI Industries Limited
LS Cable & Systems
Marmon Utility - Hendrix - Kerite Cable
Nexans
NKT Cables Group
Okonite Cable
Prysmian
Rockbestos Surprenant
Southwire Company
Sumitomo Electric
Superior Essex Electrical Product
Taihan Cable & Solutions

The list above does not include all electrical cable manufacturers. Ask your cable manufacturer if they maintain a list of lubricants approved for their cable.

American Polywater has extensive lubricant compatibility data tested to various NEMA, ICEA, UL, CSA and IEEE standards. Call our Inside Sales Team at 1-800-328-9384 for details, or e-mail us at support@polywater.com
