

AMERICAN POLYWATER LUBRICANTS

Electrical Cable Manufacturers' Approvals for Polywater LZ

Cable manufacturers evaluate and/or approve pulling compounds on compatibility with their cable jacket types. Some of these manufacturers maintain written lists of approved products in their applications literature, while others only provide information in response to inquiries.

Polywater LZ cable manufacturer approval letters and cable manufacturer technical contacts are available upon request. The following cable manufacturers have tested and approved Polywater LZ for use on their cables:

Houston Wire & Cable
The Okonite Company
Prysmian-Draka Group
Prysmian-General Cable
RSCC Wire & Cable LLC

Polywater LZ has been extensively tested for compatibility with low smoke polyolefin compounds and other cable jacket types. The manufacturers referenced above are only a partial listing. Please contact American Polywater for additional manufacture approval information.

If you have any questions or require further information, please contact American Polywater at support@polywater.com or 1-800-328-9384.
